DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 56-70 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tsai et al, of record, in view of Kao et al (6,144,068). The newly added reference to Kao teaches the inventive concept and structure with the formation of first and second diffusions beneath the gate structure. See, for example, Fig. 6 of Kao with regions (92) and (84) beneath the gate structure and where region (84) is beneath and adjacent to region (92). In addition, none of the region (92) extends beneath the gate structure.

As stated in the previous action, the reference to Tsai shows a similar structure, and also provides a teaching of the claimed dopants and specific concentration ranges of claims 61 and 62.

One skilled in the art would be motivated to combine these references in order to maximize the efficiency of the resultant FET device with improved operational characteristics.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within ~~TWO MONTHS~~ of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
